The Maritime Specialist

# OSEY URK WINCHES

**A**bout VCU. Visserij Coöperatie Urk (Urk Fisheries Cooperative, VCU) has been a leading name in the fishing industry since 1922. As a professional maritime specialist, we distinguish ourselves by offering a full-service concept of both goods and services.

The fishing gear and the fishing vessels are our core business! From steel wire to gasoil and from fishing nets to the catch processing and winches, we have it in our stock. We can deliver, produce, service or repair all these necessary items for your fishing industry. As a cooperative, we work innovatively, allowing our members, partners and clients to make use of our fast service, expertise and reliability.

This cooperative possesses three modern premises on Urk. The head office, as well as VCU Oil B.V., VCU Store B.V., VCU Safetycentre B.V., VCU Maritime B.V. and VCU TCD B.V. are located in Urk.

We are specialised in providing technical services and performing repairs, revisions, (large-scale) rebuilding, conversions and construction of a variety of vessels. Furthermore, the VCU TCD is specialized in the fabrication of winches and related hydraulic systems named "Osey Urk Winches". VCU's modern vehicle fleet consists of service buses and crane trucks. These are employed to quickly perform repairs or deliveries on-site. Our working range includes The Netherlands, France, Belgium, Germany, Denmark, Norway and the UK.

## SOME SPECIALIZED PRODUCTS ARE:

- Gasoil deliveries in all fishing ports around the North Sea
- Combination ropes for the flyshooting Danish seining
- Steel wire and chain for fishing industry
- Nets for flyshooting, twin- and quadrigging, beamtrawling and shrimp fishery.
- OSEY Urk (flyshooting) winches
- VCU CatchManagement system (grading, weighing and recording fish hauls onboard)
- Complete catch processing systems (transporting, grading, washing, holding, etc.)
- VCU Flake & Slurry Ice machines
- VCU Cooling systems

**O**SEY Urk Winches. 'The unique combination of Icelandic and Dutch fishing knowledge and craftsmanship!' This idea of a system that is simple, fast and reliable was first introduced in Iceland in 1984.

Shooting the rope direct from the drum. Today over 90% of the Icelandic fly-shooting (Danish seining) fleet is fishing with Osey Winches. Since 2005 the production of the Osey Winches is in The Netherlands, at VCU TCD. Several fishing companies in Holland, France and the UK have also started to use the Osey Urk Winches.

In The Netherlands Osey Urk Winches is also market leader for the flyshooting winches. During the years we engineered and produced several types of rope steering systems for these fly-shooting winches. Mechanic, hydraulic and electric driven. Driven with an endless shaft, trapezium shaft or with chain. Computerized or mechanic. Also for braking the drum we developed several systems like a band brake, hydraulic brake motor and disc brake with brake clamps. We offer all types and sizes of winches customized to your needs. Besides the Osey Winches we develop and

install the complete hydraulic installations. Also for a complete conversion of (fishing) vessels, Osey Urk Winches and VCU TCD is your partner to have a complete and efficient project with the latest and most reliable technology.

## OSEY Urk Winches is specialized in:

- Flyshooting winches
- Rope steering systems
- (split) Net winches
- Trawl winches
- Hydraulic systems
